Title: Method of Preventing Complement Activation

Date: November 17, 2006

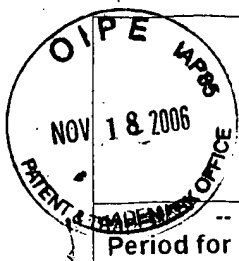

Dear Sir:

This is in response to the first office action dated September 12, 2006 regarding restriction requirement. As per the phone conversation with the Examiner, Mr. Vandervegt, the applicant confirms the election of Group I claims 1-4, 7-22 with traverse for further prosecution on merits. The applicant respectfully asserts that restriction of the claims is improper because the entire invention, per se is not related to antibodies, peptides, nucleotides, etc.; rather, the focus of the instant invention is method of inhibiting complement activation using said agents: The applicant, therefore, respectfully requests withdrawal of the restriction requirement. Should the Examiner in charge of this application believe that a phone conference would be beneficial for further prosecution of the claims, it would be appreciated if he could contact the Applicants' agent at 440-821-0627.

Respectfully submitted,
